

## WORKSHEET B

Title	Constraints	
<b>Objective(s)</b>	To favour awareness about different constraints that may affect the difficulty of task completion. To reflect on possible constraints while creating a task.	
<b>Keywords</b>	constraint – interaction – production – reception – task	
<b>Ref to the guide</b>	<b>Ref to the CEFR</b>	
I.1, I.2, I.3, II.2, III.4, IV.1	4.1.3, 4.1.4, 4.1.5, 7.2.2, 7.3.2	
<b>Task A ( † † † )</b>		
<b>Step 1</b>		
Get together in two separate groups to discuss possible constraints that might affect interaction and production tasks on the one hand, or reception tasks on the other:		
INTERACTION	PRODUCTION	RECEPTION
<b>Step 2</b>		
Compare the results of your discussion, noticing the differences between the constraints affecting interaction, production and reception		
<b>Task B</b>		
<b>Step 1 ( † † )</b>		
1. According to Par. 7.3.2.1 of the CEFR, create an interaction or production task. Consider following constraints: support, time, goal, predictability, physical conditions and participants.		
2. According to Par. 7.3.2.2 of the CEFR, create a reception task. Consider the following constraints: task support, text characteristics, type of response required.		
<b>Step 2 ( † † † )</b>		
Compare your productions, then discuss them.
